

## GLASS Surface Protection

*For glass curtain facades, splash-backs, sky-lights, windows, shower screens and balustrades.*

**A DREAM TO CLEAN... A permanent solution for never having to scrub glass clean again!**

An Ultrashield glass treatment protects glass showers, balustrades, splash-backs, sky-lights, glass swimming pool surrounds and windows from soap scum, water and salt stains, pollution and other hard-to-remove dirt and grime. It is a professionally applied treatment that creates an invisible protective layer on the glass.

We treat all glass... residential, commercial office areas, hotels, motels, boats, office showers, wherever! Nothing is too big or too small.

### Great for new or used glass

Ultrashield glass protection can be applied to new or used glass. We provide glass restoration which can bring your used glass back to 80% of its original state, removing dirt and grime build-up that ordinary cleaners can't remove. We then treat your glass with our German-engineered glass protection treatment product - Nanoshield - to prevent further damage.

### Benefits of Ultrashield Glass treatments:

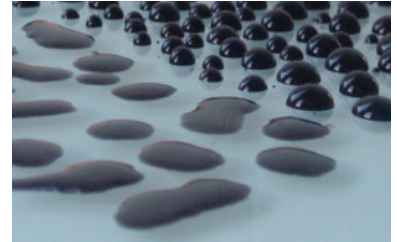

- Uses a non-toxic and environmentally friendly product (Nanoshield)
- Is a glass coating that repels water, oil and other liquids effectively
- Reduces dirt and grime build up
- Reduces cleaning time by up to 90%
- No more need of harsh cleaning chemicals
- Scratch resistant (regular wiping will not remove the coating)
- Can be used immediately after application (Shower).

### Warranty

We offer an 8 year warranty on brand new glass showers and up to 5 year warranty on used glass showers, balustrades, external windows, splashbacks and skylights.

### Pricing

Pricing is quoted on an individual basis as it is subject to specific client requirements.

See the difference between the untreated and treated glass surface.

Typical untreated glass etched with contaminants.

### Glass restoration services available

Our professional team can restore your glass to almost new and treat it to prevent further damage.
